KU KLUX BATTLE STILL IS RAGING

Democratic Leaders Fail to
Solve Grave Problem

Party's Unity Totters Under
Fires of Religious Hate

Demonstrations Are Prelude
to Impending Battle

(Continued from First Page)

The magnitude of the community
noise that is indescribable;
noise that has upon suffering ear-
drums until the point of agony
was reached; noise that became
awe-inspiring, crashed down upon
the hapless delegates.

The Smith demonstration, from
the standpoint of increasing his
strength in the convention, was the
most magnificent failure imagin-
able, but from the standpoint
merely of a din that deafened and
of a gesture that left nothing un-
attempted, it was superb.

As a purely vocal effort it was
of unprecedented proportions,
more than 10,000 spectators, all
coached and equipped in large
measure with megaphones, joining
in cheers, songs and calls. Added
to this was the noise of a score
of thousands of whistles, cowbells,
rattles and gongs. But the really
effective touch in the ultimate in this
riot of sound, was contributed by
a half dozen or more of huge
sirens, placed in strategic positions
and kept continuously shrieking
for more than an hour and a quar-
ter.

Judge of the effect! A brass
band passes within ten feet of the
correspondent benches, the musici-
ans are playing with an enthusi-
asm that harmonizes with the gen-
eral pandemonium, but not a note,
not even the throb of the huge
base drum, can be heard.

A large delegate in the Massa-
chusetts delegation arises and be-
lows through a megaphone four
feet long. He wields his effort
for all the effect his obviously en-
thusiastic remarks obtained her
could as well have whistled or
remained entirely silent.

PROVES A BOOMERANG

But it was a New York demon-
stration, not an outburst of Smith
sentiment in the convention, also
it had its bad effects. Many had
delegates, after wonder-
ing for two days where all the
tickets had gone to which they be-
lieved themselves entitled, suddenly
discovered a solution of the mys-
tery. Mr. Smith will not receive
many votes from these men.

Many women who believe that his friends
appropriated seats which the dele-
gates sought for their own use, be-
lieved themselves entitled, suddenly
discovered a solution of the mys-
tery. Mr. Smith will not receive
many votes from these men.

During the progress of the cata-
clysmic acclamation for Gov. Smith
a sudden thought occurred to the
delegates. They were not alone in
this. Mrs. William Gibbs Mc-
Adoo was enjoying the occasion.
The demonstration had been in
progress for more than an hour
and the hosts of the Smith en-
thusiasts that their demonstration
would best McAdoo's, both in im-
pulsiveness and length of time, had
been accomplished.

Naturally, Mrs. McAdoo being a
good student of politics and hav-
ing a vital interest in her husband's
campaign, would be impressed.

Mrs. McAdoo was calmly pow-
dering her nose.

She appeared neither impressed
nor depressed and, after all,
what could the wife of one can-
didate do to show greater indif-
ference and scorn for the plaudits
accorded another candidate than
to slowly, methodically, and ex-
pertly powder her nose? It was
a superb gesture.

Chairman Walsh restored order
with some difficulty. It is said that
many of the Smith rioters had
been hired on an eight-hour basis
and, their hearts being in their
work, they apparently were deter-
mined to do an entire day's labor.
Then a few more candidates, each
receiving his little offering of
cheers and applause, were nomi-
nated. An almost equal division
developed over a proposal to ad-
journ, but those favoring a con-
tinuation of oratory won the day
and a recess was taken until tomorrow.

There is a peculiar perversity
that seems to take hold of all
individuals selected to deliver nomi-
nating speeches. Ordinarily good
citizens and kind neighbors, once
they are turned loose upon a
helpless audience they immedi-
ately lose all feelings of pity and
mercy and peruse in inflicting the
most exquisite torture upon friend

and foe alike. They are deaf to
the most heart-rending pleas for
mercy and become the most de-
fiant and belligerent if the crowd, in self-
defense, seeks to cut them short.

STILL THEY COME

Inasmuch as ten or twenty
more hopeful favorite sons are to
be nominated the defeat of the
Democracy of the nation to take
further punishment will be tried
to the uttermost.

The McAdoo and Smith nomi-
nations being out of the way, and
other nominations either having
been made or programmed for to-
morrow, speculation has redoubled
as to the identity of the individ-
ual finally to be chosen as the
nominee.

Leaders of the McAdoo candi-
dacy have found new confidence
yesterday and tonight appear
more optimistic than conditions
would seem to justify. There is a
report that William Jennings Bryan
is participating in the fight to nomi-
nate the former Secretary of the
Treasury and that he has devised
a new strategy for the concluding
struggle.

A few McAdoo adherents may
think that a break to their candi-
dacy will occur early in the balloting.
Directly contrary to this view, sup-
porters of Gov. Smith, not at all
backward in predicting success for
the New Yorker, assert that Mc-
Adoo's strength will wane rapidly
after two or three ballots.

The feeling between the two
camps was increased definitely and
considerably this afternoon when
the McAdoo headquarters discov-
ered that several boxes of Califor-
nia orange juice, which was to
be served to McAdoo admirers,
had been spoiled by the introduc-
tion of several packages of cla-
rettes and loose tobacco.

Whether this was an inadver-
tent or a deliberate exhibition of
scorn by Smith admirers for the
McAdoo aggregation may never be
known but the indignation of J.
Harvey Smith was almost im-
pressive in its way as the demon-
stration for Gov. Smith.

COUP FOR McADOO

Franklin D. Roosevelt's speech
nominating Gov. Smith was the
feature of the day's proceedings,
but it did not come of quite ac-
cording to the program as it had
been understood that the majority
of the delegates.

It had been arranged that when

RAIL VALUATION
TASK IS KNOTTYFirst Estimate Finished by
CommissionVaried Opinions Show How
Problem StaggersMembers Differ on Method of
Computing Value

BY FREDERIC J. BASKIN

(BY CABLE-ASSOCIATED PRESS)

WASHINGTON, June 26.—In

placing a final valuation of \$48,-

100,000 on the Kansas City South-

ern Railway the Interstate Com-

merce Commission has completed

its first big job under the La Fol-

lette Valuation Act. Two or three

lesser lines have been valued, but

the Kansas City Southern is the

first road of major importance on

which a final appraisal has been

placed. This valuation came only

after protracted litigation.

Commissioners Potter, Cox and

Eastman dissented from the ma-

jority opinion. The point of special

interest in these dissent is that Mr.

Potter was a railroad president be-

fore being appointed to the com-

mission. He was the head of the

Carolina, Clinchfield, Ohio Rail-

way. Commissioner Eastman is an

organized labor man. These two

commissioners represent the ideas

of capital on the one hand and

of labor on the other. Neither was

able to agree with the majority of

the body.

The commission in its opinion

declines to state the method em-

ployed in fixing a value for the

Kansas City Southern. This atti-

tude is sharply attacked by Com-

missioner Potter. He says the com-

mission's report is indefensible.

"The values we are finding," he

says, "do not represent proper

bases for rates, for the issue of se-

curities nor for the recapture of

excess earnings." He declares that

he has arrived at a value of \$40,-

000,000 for the railway, and has

done so by application of a rule

which could be used in all valua-

tion cases.

TEN YEARS' TASK

The commission has been work-

ing for about a decade on this task

of the physical valuation of rail-

roads.

Commissioner Potter believes

that a fair method of determining

the value of a railroad would be

an examination of the market

worth of its stocks and bonds out-

standing. But, says the majority

of the commission, the value of a

railroad's securities is dependent

in the creation of a railroad system

and declare the total to be the

proper valuation. The earnings

power theory was rejected entirely

by the commission.

INTANGIBLE VALUES

The Kansas City Southern

showed that its outstanding securi-

ties were valued at \$82,000,000,

should fix no lower sum. The

and argued that the commission

upon its earning power. In turn,

its earning power is dependent up-

on the rates charged. If valua-

tion is based on security value and

rates are made on the basis of that

valuation, a circle is described.

The commission states that it

would be out of the question mat-

terly to add up all the items of cost

these securities are based upon

property not devoted to public

service and that to include them

in the valuation for the purpose of

rate making would be to inflate the

rates. Intangible value has been

a point on which the carriers and

the commission have been unable

to agree. The commission omits

these intangibles in the Kansas

City Southern case.

In the course of the hearing on

this case the Kansas City Southern

adduced evidence to the effect that

its property was worth anywhere

from \$74,000,000 to \$84,000,000.

Commissioner Eastman, the labor

member, who dissented, made his

own valuation. He said the road

should be valued at \$44,500,000.

This, it will be seen, is on the low

side. The railroad wanted \$80,-

000,000. The majority steered be-

tween with a figure of nearly \$50,-

River Ganges, at a beautiful rural

spot sixteen miles from Calcutta

at 3 p.m. today, after their flight

from Akrah.

The flight caused enormous in-

terest among the Indians

who lined the picturesque banks

of the river at an early hour in

the sweltering heat. The scene

was like that of a regatta except

that a long stretch of the river

was kept clear.

The airmen left Akrah early in

the morning going ten miles to the

east to avoid a storm. They

reached Chittagong in two hours,

halting for breakfast. Their total

flying time to Calcutta was more

than five hours. The Americans

flew at an altitude of 1500 feet

without incident, the monsoon

causing little inconvenience.

Secretary Hughes is Told

Free State Affairs Are in

Minister's Hands

BY A. P. MERRY WIRE

WASHINGTON, June 26.—Sec-

retary Hughes was advised by the

British Ambassador that the Brit-

ish government deemed it desir-

able that the handling of matters

at Washington exclusively relating

to the Irish Free State should be

conferred to the Irish Minister

Plenipotentiary, accredited to the

United States. Questions which

are of an Imperial concern or

which affect other dominions in

the commonwealth in common

with the Irish Free State will con-

tinue to be handled as heretofore

by the Embassy. Secretary Hughes

replied that this government was

in cordial agreement with the

purpose and would be glad to re-

ceive a Minister Plenipotentiary of

the Irish Free State.

Irish Republic

for Asking Is

Britain's Hint

BY CABLE AND ASSOCIATED PRESS

LONDON, June 26.—In a state-

ment in the House of Commons to-

day with regard to Irish diplo-

matic representation at Washing-

ton, J. H. Thomas, the Colonial

Secretary, said there seemed to be

an impression that if an Irish re-

public were asked for it would be

conceded. It should be understood,

he declared, that any such demand

would receive the same reply he

believed it would have received

from either of the two previous

governments in office since the

treaty was signed.

The government added Mr.

Thomas believed that peace and

friendship could be maintained in

Ireland by the establishment of the

Free State as a self-governing do-

minion in the British common-

wealth and in no other way.

WATER PROJECT OFFERS PROFITS

New Salt River Dam Will
Furnish Mine Power

Copper Company Contracts
for Fifteen Years

Construction Estimated to
Cost of \$4,400,000

PHOENIX, June 26.—According to Manager C. C. Cragin of the Salt River Valley Water Users' Association, the proposed Horse Mesa Dam across Salt River will return the association a profit of \$3,000,000, or about the gross cost of the Salt River project to date. The Inspiration Consolidated Copper Company has contracted to pay at least \$1,000,000 for electric power with fifteen years and to purchase from the association all the power needed for twenty-five years.

Mr. Cragin told that the new development will produce about twice the power generated at Roosevelt, at about half the cost of operation.

LOW POWER RATE

The Inspiration company will gain in securing the lowest power rate ever granted in the Southwest, 6 1/2 mills per kilowatt hour for steady service, but figures show that it will use much more than the minimum specified, with possibility that it will contribute as much as \$1,000,000 a year to the association's income. For the coming fiscal year the association probably will have a gross income from power of \$900,000, largely by utilization of the new regulating dam at Mormon Flat, to be finished within two months.

The new dam will be twice as big as the Mormon Flat structure, but in a way will not be as much of an engineering feat, for bedrock is only twenty-seven feet deep, compared with seventy-three feet at the flat. From bedrock it will be 300 feet high, and it will be 140 feet wide at the bottom and 400 feet at the top. The reservoir above will back water seventeen miles to the base of the Roosevelt Dam, impounding 100,000 acre feet, or less than a quarter of the capacity of the Roosevelt reservoir.

BONDS TO PAY

About 40,000 horsepower will be added to the association's production of electric current. About \$4,400,000 will be needed for the new work. Of this \$3,500,000 will be raised by the sale of 4 per cent bonds, the balance expected to come from reclamation and irrigation districts that have attached themselves to the main project. A new 100,000-volt transmission loop line will be constructed between the generating plants of Miami and Superior. Service extensions are to lead to Florence and Casa Grande, and possibly other Arizona mining companies will be served.

Catnip Lures
Mountain Lion
to Destruction

DENVER, June 26.—Catnip, the feline's delight, has proved to be the undoing of another big mountain lion, according to word received Friday by Stanley F. Young, junior biologist with the United States Bureau of Biological Survey.

Harry O. Bryson, a hunter working for the State Board of Live Stock Inspection Commissioners and the Federal bureau, wrote Young informing him that catnip had lured to a trap the second largest mountain lion trapped by Federal hunters.

NEWLYWEDS REVEALED IN AUTO WRECK

Marriage Was to be Kept Secret; Youthful Couple Face Annulment

DENVER, June 26.—An automobile accident on the Peterburg road revealed a marriage that was intended to remain secret—for the time being, at least—and may result in annulment proceedings, it was intimated, because of the youth of the bride and bridegroom.

The newlyweds who met up with misfortune at the very start are Clifford Riegel, 20 years of age, and Mrs. Riegel, who was Theo Elder. They were riding in a car driven by E. H. Bellos, when it collided with a machine driven by Reuben Wold, a short distance north of Peterburg.

The Bellos car was hurled into a ditch and the shoulders and a wrecked cab, while her husband suffered a broken collarbone. Bellos was uninjured.

Besides Wold, there were in his car Clarence Tipton, Harold Lee, Mr. and Mrs. Egli Lee, and their three children, Irene, Helen and James. They were bruised and shaken up.

Wold's car was only slightly damaged. He took the young married couple to the General Hospital.

BOY GARBED AS FLAPPER IS BURGLAR
Puzzling Thefts Solved When Hat and Wig Fall From Suspect's Head

JANESVILLE (Wis.) June 26.—The drop of a hat and the fall of a wig have solved a string of minor house robberies in Janesville and the culprit has been discovered to be a 16-year-old boy masquerading as a girl.

For six months local police have been baffled by house robberies committed in the daylight hours. Only women's wear, jewelry and other small articles have been missing. Monday night a young woman, stylishly gowned, pinkily rouged, came out of a garage. Police followed and questioned her. Unexpectably her hat fell off and with it a wig, and there stood Robert Higgins, Master Scout, brilliant scholar, model youth. Up to that time the only clue had been the imprint of a high heel in mud. The youngster has admitted some of the thefts. He did it, he said, in the spirit of adventure. He always dressed as a girl in making the entrances into homes, all in his own neighborhood.

United States Olympic Men Go Through First Workouts on Foreign Soil

OUR ATHLETES TO THE RESCUE

Olympic Leads Assume Role of Life Savers

Assist at a Big Fire Near Their Quarters

Boys Make Up a Purse for Victim's Wife

(BY CABLE AND ASSOCIATED PRESS) ROQUECOURT (France) June 26.—The American athletes, here to start intensive training for the Olympic games, had not more than settled into a heavy sleep last night after their voyage across the Atlantic than they were called upon to act as life savers in a general fire which broke out here, near the chateau where they are quartered.

Twenty houses caught fire almost simultaneously owing to a short circuit in electric wires. The jangling of fire bells and blowing of whistles awakened the Yankee Olympic contenders. Dr. Bridges, assisted by Dr. Karl Anderson, the latter a star hurdler, quickly organized a rescue party and hastened to the rescue of the villagers.

One villager was selected when he attempted to cut a live wire which had fallen across the street. One woman was severely burned.

William B. Richardson of Stanford ran the fastest 100 meters he ever ran in his life—he says—getting to the local power-house with the Mayor's assistant and ordering the power cut.

This morning at the breakfast table the athletes took up a collection for the wife of the dead villager which netted around \$200.

Prior to 1924 no limit was placed on the number of athletes any nation could enter in the Olympic games. The superiority of the Americans at Stockholm in 1912 caused the Olympic officials to limit the number to six and the starters to four and four started. Six places count in each event.

**CUT CAR LINE
LOAD FOURTH**

**Railways to Economize for
Period of Shortage**

Conservation of electric power and water both in Los Angeles and Pasadena yesterday became a main topic of discussion by city authorities in both communities and resulted in the announcement by the Los Angeles railroad of a reduction program which will cut down their power load 28 per cent.

In Pasadena where the city authorities maintain they are facing a "serious situation" with respect to the water supply, a protest was filed by the city with Reginald Smith and Register Valentine of the local Federal Land Office against the granting to the Los Angeles Flood Control District

San Gabriel Canyon. The railroad is planned in connection with the new San Gabriel dam, which is located on the San Gabriel river and is objected to by the city of Pasadena because it will be a barrier to the city's access to the city reservoir near Pine Canyon and at the intake of the Southern California Edison Co. power plant. The Los Angeles Railway, in an agreement with the city of Pasadena, which will have to be approved by the Board of Public Utilities and the Board of Water Commissioners.

There will be only a slight reduction of service in the morning and evening rush hours. The cars will be removed on the midday and night schedules. Despite previous promises, the city of Pasadena is offering a reduction of 35 per cent in the operation of cars.

BUSES TO BE USED

The removal of the cars will be made up of "stop" signs, as approved by the Board of Public Utilities, was started yesterday by the city of Pasadena. The city plans are approved some cars.

The west terminal of line "D" will be turned south on main street near the end of the line and lighted cars, which consume less power, will provide service to the Light House.

The west terminal of line "B" will be turned east on main street and Bonnie Bree streets to Fifth street, where it will turn north on Alvarado streets, and shuttle cars will provide service to the Alvarado-street grade. Line "C" north terminal was cut from Glenview street to North Spring streets. This eliminated the duplication of line "B".

The railway officials also announced yesterday that all available cars will be used to increase service at once. Twenty-one new double-deck busses are scheduled to arrive in about two months and will be rushed into service along with the old busses as soon as they begin operating.

Lights, cars and at terminals and on all railroad property will be reduced to a minimum by comparison with other cities.

then to bring about the reduction of the power load by the ordered curtailment of the power without any serious curtailment of service.

In Pandema the protest against the granting of a railroad right-of-way by the Board of Directors last Tuesday by the Board of Directors of that city was the outstanding feature of the day. Explaining the protest the city manager stated:

"The city of Pandema is engaged in supplying water to its territory to a considerable territory in the vicinity of the city, the total population of the area served being approximately 100,000. The city of Pandema lies over a subterranean basin and the present annual draft upon the basin is in excess of the capacity of the basin to supply the basin, upon which the city is

pendent on its water supply. It is imperative that the San Gabriel River project upon which the city has been working be developed as soon as possible. The construction of the proposed railroad will make absolutely impossible the construction of a dam for the city of Pasadena.

As a result of the present scarcity of water in Pasadena the city authorities about a month ago ordered that the watering of lawns cease during the day except in certain districts. Violation of this order—

DR. KURTZ TO BE LAID NEAR WIFE

Funeral of Los Angeles Pioneer Today; Interment at Inglewood

Funeral services for Dr. Joseph Kurtz, local physician and one of the organizers of the medical school of the University of Southern California, will be conducted today at 10 a.m. at the family home, 1801 South Taborian street. Burial will be in Inglewood Cemetery beside his wife, who passed away seven years ago.

Dr. Kurtz was 52 years of age and had been a resident of California since 1887. He received his medical degree from the University of Southern California in 1901. He was a member of the Board of Education of Los Angeles and served as president of the Los Angeles Medical Association. He was also a member of the American Medical Association and the Southern California Medical Association.

Dr. Kurtz served several years as County Coroner. He resigned general practice several years ago. He was a director in the Security Trust and Savings Bank, going with that institution when it absorbed the German-American Savings Bank, of which he was an organizer.

He leaves two sons, Dr. Carl Kurtz and William Kurtz of Los Angeles; three daughters, Mrs. R. L. Horton, Mrs. J. A. McGarry of Los Angeles and Mrs. Raymond Wheeler of Stockton. Active pallbearers at the service will be Carl Entemann, J. P. Krempel, George Lichtenberger, John Miller, Dr. F. Schumacher and Louis M. Cole. Honorary pallbearers will include thirty friends and business associates of the late Dr. Kurtz.

General denial of the allegations that they had attacked and beat Mrs. Ida May Gebauer, operator of a home for the aged on Elm street, were made yesterday by George F. Colclazier and J. A. Hassell in answers to the suits for damages brought against them by Mrs. Gebauer.

In her complaints, which were prepared by Attorneys Clark and Law, Mrs. Gebauer asserted the defendants appeared at her home April 27 last and assaulted her. She charged that Hassell knocked her down and dragged her a distance of twenty feet or more. She asked \$5000 damages of Colclazier and \$15,000 damages of Hassell.

That the suits will be bitterly fought by the defendants was indicated when their attorneys, Paul Schenck and Richard Kittrell, appeared before Presiding Judge York in Superior Court and obtained an order for a subpoena commanding Mrs. Gebauer to give her deposition before a notary.

Mrs. Gebauer sprang into the limelight recently when the District Attorney's office was called upon to investigate reports of alleged mistreatment of inmates of Mrs. Gebauer's home. The District Attorney, however, declined to issue a complaint after receiving the report of the investigators who had been assigned to the case.

Madame Zucca Fined for Wine on Cafe Table
Federal Judge McCormick yesterday fined Mme. Victoria Zucca, former proprietor of a Venice cafe, \$250 when she pleaded guilty to violating the Volstead Act. John Rava, who was employed by Mme. Zucca as a waiter, also pleaded guilty to similar charges and was fined \$100. The two were represented by Charles Lyons.

STARS COME HOME

MARY AND DOUG WILL LEAVE EUROPE IN PORTNIGHT

By Grace Kingsley

Mary and Doug are coming home.

This information comes from the Pickford-Fairbanks Studios, where a letter from Mary arrived yesterday stating that the stars would sail not later than July 14 and possibly July 9.

The famous pair are now on their way back to Paris by motor from Denmark and expect to arrive in the French capital in time to view the Olympic games, from July 9 to 13, the event that the Olympiad falls to hold their interest over the entire meet, they will embark from Cherbourg on the Majestic, sailing for New York on July 9. It is more than likely, however, that Doug will wait to see the Olympic events all the way through, especially if America is winning.

On June 4, Doug and Mary left Aix Les Bains in Southeastern France to motor through Southern Germany as far as Berlin. From there they went by train and boat to Norway where they toured both Norway and Sweden and were accorded receptions greater than any ever accorded a visiting couple.

After visiting both Christiania and Stockholm, the stars went to Copenhagen, Denmark, and after touring that kingdom, left by automobile for Paris, traveling through Holland en route.

This is the most extensive tour we have ever seen. Mary wrote, "and the entire trip has been so light. However, I will be glad to return home."

Ed. Grauman is planning a "welcome home" performance of "The Thief of Bagdad" for Doug at the Hollywood Egyptian Theatre. This will be the last of July or early in August, depending upon the stars' arrival.

William Douglas has announced any plans. Miss Pickford wrote to Ernest Lubitsch, who has a contract to direct her in one picture a year for three years, saying she would be ready to start work October 1. At Lubitsch's suggestion, she looked up an old Swedish story in Berlin, but as yet has not announced what she will produce it. She asked Lubitsch to continue his search for a story here and suggested something with plenty of comedy because he handles that medium so delightfully. In her letter to the director, Miss Pickford stated that they would remain in New York until a few days and would then continue to the Coast, arriving here the latter part of July.

CARAVAN DEPARTS TO

MAKE BIG WESTERN

Still another big company of players has left for the big open spaces to be found in Arizona. The company was that of Sam Wood, producer of the new picture, "The Iron Horse," which is now being made in the Arizona desert.

The company left on a scouting expedition yesterday, their motive being to determine on the exact locations for the filming of the picture. All the episodes will be made on the exact locale of the story. Actual filming will start next week.

Living facilities in Arizona, particularly the locations that will be used by Wood, are very poor, and one of the first things the company will do is to prepare for as comfortable accommodations as possible. The heat will have to be contended with, and to this end special tents are being dispatched to the locations to provide comfortable living quarters for the players.

Dorothy Mackall has been seen.

Starring in New Feature Tomorrow

Dorothy Dalton, Who with Jack Holt will be seen in "The Lone Wolf" opening tomorrow at the Mission Theatre.

was caused by Mr. McAlister's valet, a very English sort of man. He is honest, shy, and his home being a wife young creature, promptly threw him over a cliff. While he hung by one foot, he started screaming "Two feet, two feet, watch and money!" and I stood stupidly by laughing too much to be of any help. He was rescued, though, even if I lost my chance to win the Nobel prize.

Sara Southern Amusements, who used to be known as the Majestic, but who has been renamed the Mission Theatre, is now showing "The Lone Wolf" starring Dorothy Dalton and Jack Holt.

The young actress met with much success in the East, and has been signed on a long-term contract with the Mission Theatre. She will return to New York in August to commence rehearsals in a new play.

Rodolph Valentino's first starring vehicle for Ritz Carlton Pictures will be "Cobra," a film adaptation of the Martin Brown play now being produced here.

Alfred Jacobson, the infatuated cameraman, who rescued the balletists on Hudson Bay shores in 1918, and who is now in Alaska, has secured moving pictures of the famous Major Martin trail, and will show them in the Valley of Ten Thousand Smokes.

Lillian Rich has returned post-haste from a personal appearance tour in the Middle West to play the lead with John Bowers in Ben Veschler's pretentious feature, "Empty Hearts."

Clara Bow and Charlie Murray are included in the cast. Book picture and serially published magazine story will all be released at the same time and under the same title.

Alice Hollister has joined the Robert Vignola company filming "Mrs. Parson" at the Metro-Goldwyn-Mayer studios.

The actress is a pioneer motion-picture player, having been with Kalem for a number of years as a feature player and a star. Two years ago she worked under the direction of Vignola, then director of the Kalem company.

She traveled to Ireland and made a series of productions, and since her return has appeared in a number of all-star cast pictures. She is playing the role of Mrs. Calender in "Mrs. Parson."

Public responds to name request.

Everyone in Southern California seems anxious to win the \$50,000 offered by Oral D. Ciolek, manager of the Clune Broadway, for a new name and slogan for the show-house.

The theater has just been sold to Carl Laemmle of Universal. It will close for a few weeks, when "The Fighting American" showing is concluded while remodeling and redecorating goes on. When it reopens, it will be under a new name.

"Mlle. Magnificent" scored a distinct triumph last night in its initial performance at the Mason Opera-house. A musical fashion pageant, it included some of the best talent the city affords. The performance, had scarcely commenced before the audience was as delighted as though one of the finest traveling troupes was appearing.

The pageant includes both a fashion revue and a musical comedy. Many of the finest shops in the city were represented in the array of beautiful and gorgeous garments.

Dances, both eccentric and exhibitionist, for a favorable comment. Apache, Russian, acrobatic, specialty—all were presented in a manner which took the audience by storm. Olive Ann Alcorn, playing the part of Mlle. Magnificent, danced with a grace and finesse rarely seen outside the confines of a professional ballet exhibition, and proved beyond the shadow of a doubt that she is especially talented.

The play was divided into two acts, with six scenes in each act. And, each scene, each scene seemed better than the scene before.

Miss Alcorn scored especially in her dance, "Destiny." She disclosed a charmingness of movement which marks the true student of terpsichorean art. Her rendition of the dance, "Fut," also was especially well received, as were, too, her other numbers.

The distinct hit of the evening, however, was the singing act put on by the Loomis Twins, children in the neighborhood of 6 or 7 years. Their "Mr. Gallagher and Mr. Shand," sung with a ludicrous movement of their bodies, proved too much for the audience and they were called upon to do several encores.

Deserving special mention were the Russian dance presented by Anna Gerastinich and S. Uradin, the Apache dance with Harriet Bry and Harold Day, and the number by Maurice Kussel. All were put on with a vigor and enthusiasm, the most laudatory praises. These above-mentioned, however, are not to be defined as alone possessing ability. Every act upon the program deserves honorable mention and only space forbids detailed praise to each.

"Mlle. Magnificent" has in its cast several persons well known both locally and nationally. Olive Ann Alcorn plays the title role and opposite her is Frank Bralwood, the cowboy baritone. Included in the supporting cast are Sidney Franklin, Westcott Clark, Frank Crayne, Dick Gordon, Ann Small, Andy Clark, the Loomis twins, and a score or more in the chorus.

Ability Shown in Duvall Violin Recital

The concert which Florence Duvall, artist pupil of Amanda Zoller, of the Zoller Quartet and Conservatory of Music, gave last evening at the Club was a pleasure to hear. She performed a program of difficulty and dignity.

Her first number was the E Major Violin Concerto by Bach, and in this she was accompanied by the Zoller Quartet. When one considers the difficulty of the instrument and the magnitude of the work, to say that she played it well is inadequate.

It is a test of virtuosity in accuracy and speed; a test of artistry in the control of such long notes as the Rondo Capriccioso movement, and throughout a test of poise and musicianship. She accomplished these admirably.

Her work was extraordinary in the flute-like harmonies in the serene Esquillo by Chaminade-Kreider. The "Rising Sun" by Franko "Hymn to the Sun," an arrangement bristling with difficulties, was played with charm. The impressive Paganini-Kreider Prælude and Allegro she took at an excellent tempo.

To say that here and there she slipped a bit from pitch, or that there were occasional unevennesses such as numbers as Saint-Saens's Rondo Capriccioso, where her bow arm will develop added looseness as her art develops, does not qualify the estimate of the excellent effects which she produced as a high average. She is primarily a young lady of great ability, and her work is a fresh and a pleasing art.

Her manner is of that contagious "womanhood" which is so to be seen. Although she impresses one as a performer in style, she nevertheless obtains a bright rhythm and a strong and vivid tone.

"CHECHAHOS" SHOWS

Photoplay Made in Alaska to Open at California Tomorrow

"The Chechahos" will be given its western premiere at the California Theatre tomorrow. It is the first motion picture produced in Alaska and by Alaskans.

There is said to be considerable interest in the presentation of this picture with local stars, directors and producers to witness the results attained by the northern producers.

The story deals with history of Alaska during the stirring days of the Klondike gold rush, from 1897 to 1912, and specifically with the adventures of two prospectors, college professor and his family, and a knife-throwing gambler.

Throughout runs a strain of romance that is all the more emotional audience could ask.

Among the interesting spots shown in the picture are Mr. McKinley, highest peak on the American continent, and photographed for the first time in motion pictures, and Child's Glacier, a mass of ice said to be 500 square miles in diameter and a diamond and clear as a crystal.

Eva Gordon and Albert Van Antwerp have the leading roles.

EMERSON-LOOS COMEDY COMING TO PLAYHOUSE

John Emerson and Anita Loos will be introduced anew to the world's greatest cinema town—this time as coauthors of a successful stage comedy instead of a scenario. It is "The Whole Town's Talking," which John Emerson and his equally gifted wife have given to the legitimate stage. This is a comedy of vast humorous portents, their witty, scintillating effort. The subject they know so well—the movies—goes to make up the major portion of the plot.

The Emersons' friends and admirers will have an opportunity to see the comedy at the Playhouse, beginning Monday, July 1, when the stage director of Lillian Albertson.

Johnny Arthur Broadway leading man, will play the chief masculine role. He is said to be a coming Willie Collier.

The Whole Town's Talking" played for twenty-three weeks in New York and was recalled to town three times. A notable cast will be provided for Mr. Maclean's production.

CHRISTIE FEATURE OPENS AT ALHAMBRA

The entire Christie studio organization will witness the premiere showing of the Al Christie six-reel comedy, "Hold Your Breath," at the Alhambra Theatre tomorrow.

The comedy has an all-star cast headed by Dorothy Doyers, with Walter Hiers, Tully Marshall, Colin Plumer, Jay Balasco, Jimmie Adams and other players whose faces are familiar to film fans.

STUDIOS STRIKE
AT PHONE PLAN

Declare New Rate Charges
Would be Oppressive

Hardship to Film Extras is
Also Pointed Out

Engineer States Meter Cost
Would be Low

M. D. Gardner, business manager and assistant vice-president of the Metro-Goldwyn-Mayer Film Corporation, appeared before the State Railroad Commission yesterday to protest against the rate and exchange telephone service proposed by the Southern California Telephone Company.

Mr. Gardner was emphatic in his opposition to the proposed exchange area. A check made by the corporation showed, he said, that 957 outgoing calls from the studios to Los Angeles and 114 calls from Los Angeles to the studios had been made during the first eleven days in April and in the first nineteen days in June 11,989 outgoing calls to Los Angeles and 1649 calls to the studios from the city had been recorded.

Under the exchange area plan, under which a flat 10-cent rate would be put into effect for all calls between Culver City and Los Angeles, the corporation would be taxed approximately \$1800 for a half-month's service, he stated.

HEAVY FILM EXTRAS

A production program entailing the expenditure of \$7,000,000 has been arranged by the corporation for the present year, he stated. A marked increase in phone calls to and from the studios can therefore be expected, he said, and the charge therefore will be much greater.

The exchange area will also work a great hardship on film extras, he stated. From 400 to 800 of these extras are used at the studios daily and the corporation has a standing list of 6000 of these extras. Nearly all of them live in Los Angeles and Hollywood. If they are forced to pay 10 cents each time they call to inquire for work they will stop calling, he declared.

PLAN COST SHOWN

Inge Carpenter, secretary of the Ince Corporation at Culver City, was the next witness. He stated that the corporation he represented makes about \$600 calls a month to and from Los Angeles and that the monthly bill for this service is approximately \$141. Attorneys for the company brought out that this represented a cost of 1.4 cents a call and that this was much too low.

The installation of the meters in Los Angeles, C. E. Steger, engineer for the telephone company, testified, will cost about \$400,000, which would be less than 1 per cent of the physical value of the company's property, he said, and will cost about \$7.

An entirely new proposition, suggesting an enlargement of the present exchange area as operated by the Southern California Telephone Company, was submitted to

Prize-winning laughs, with names and addresses of contributors, will appear in "LOCAL LAUGHS" film, shown in following theaters: LOS ANGELES, Loew's State; Culver City, Loew's State; Inglewood, Loew's State; Long Beach, Loew's State; Santa Ana, Loew's State; Santa Paula, Loew's State; Sherman, Loew's State; T. & D. Read all contributions by June 30, 1934.

The commission by John Dillon, assistant engineer of the Board of Public Utilities, Mr. Dillon's proposal was regarded as somewhat radical in the fact of the company's application to contract these areas rather than to expand them.

The commission was also presented with two petitions signed by representative citizens of Beverly Hills and Sherman protesting against the company's request to be permitted to establish an exchange area for the Beverly Hills Sherman district. The hearing will be continued at 10 a.m. today but probably will be heard only during the morning and then adjourned for several months.

Concert Fund is
Not at Goal Yet

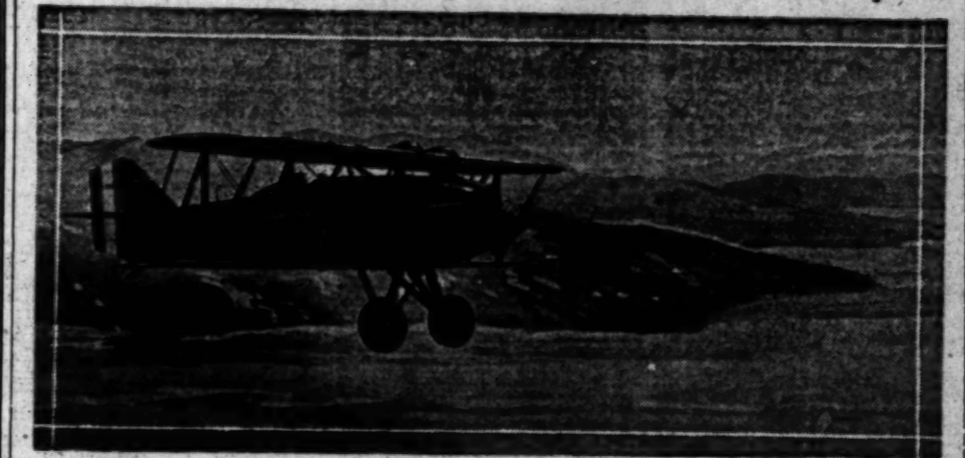

Of the \$10,000 required to finance the Hollywood Bowl summer concert season opening the evening of July 3, next, \$10,000 must be collected by that day, and of that sum \$10,000 is still to be raised. It was announced yesterday by Mrs. J. J. Carter, president of the Hollywood Bowl Association.

The money can be raised only through the sale of season books, and Mrs. Carter appealed to all lovers of music in Southern California to help her organization bring the world's best talent to this city by buying and urging others to buy season books, which are to be on sale at all large local music stores until July 15, next.

Season books, containing forty transferable tickets good at any of the thirty-two concerts, cost \$10, a rate of 25 cents a ticket. Tickets

ATTACK ATTEMPT IS
REPORTED BY WOMAN

INTENDED VICTIM TELLS OF
ESCAPE FROM DRIVER
OF AUTOMOBILE

Edith M. Lindsay, 308 Winchester avenue, Alhambra, reported to the police yesterday that a man attempted to attack her on her way home Wednesday night. The man accosted her at Westmont Drive and Stockbridge avenue and tried to force her to get into his automobile, she said. After a fight, according to her story, she succeeded in breaking away from him.

He drove away in his machine before she could summon neighbors from their homes, she asserted. Miss Lindsay said her clothing was torn and her body bruised in the attempted attack. She described her assailant as a shabbily dressed man, about 35 years of age, of about five feet eight inches in height and weighing about 180 pounds.

ATTACK CASE HEARING

Saleman is Accused of Attempt
to Assault Woman

The preliminary hearing of Gus M. Wilson, charged with an attempted criminal attack on Mrs. Novia Brice of 874 Eastmont avenue, Montebello, began yesterday before Justice Forbes.

It is charged that Wilson, in the capacity of a real estate salesman, forced his way into the woman's home, dragged her into a bedroom and there attempted to assault her. She fought him off and drove him out of the house with a revolver, which she grabbed from a dresser. The case is being prosecuted by Dep. Dist. Atty. Murray and will be resumed tomorrow by Judge Fradenburg.

BOYS HELD AS BURGLARS

Accused of being a "baby" sky-light burglar gang, Eli Soto, 13 years of age; Pedro Burica, 8; Luis Torres, 10, and Coballos, 12, were taken into custody yesterday by members of the police reserve. Found in possession of tools stolen from the American Furniture and Fixture Manufacturing Company of 3016 Violet street, the youthful quartet confessed to entering the establishment through the skylight, the officers reported. The boys were turned over to the juvenile authorities.

The Street Railway Plan For Meeting Power Shortage

DUE to the light rainfall last winter, Southern California is facing a shortage of electrical power which has caused the State Railroad Commission and the Board of Public Utilities of the City of Los Angeles to issue orders for the conservation of power by the Los Angeles Railway. Under these orders, the street railway will start tomorrow on a program for reducing the consumption of electrical energy.

The company will do its utmost to meet the demands for power saving with the least possible inconvenience to passengers and asks the co-operation of patrons during the emergency. Three methods of conservation will be established at once.

FIRST, FEWER STOPS:—A general rearrangement of stops on the greater part of the system will be made under the supervision of the Board of Public Utilities. While this will mean a few steps more walking for some patrons, it will be an important part in the necessary job of conserving power.

SECOND, TURNBACKS:—On some of the lines cars will turn back before reaching the far-terminals and service between the turn-back points and the terminals will be provided by shuttle cars. Considerable power can be saved in this way as lighter cars, which consume less power than the main line cars, can be used on

the ends of the lines and can be placed on schedules to meet travel demands of the districts.

THIRD, USE OF BUSES:—All available busses of the Los Angeles Railway will be put in service. Twenty-one more busses are to be delivered within a month.

Present indications are that midday and night service will be reduced but that the rush hour service of morning and evening will not be cut materially.

The lights in cars, company buildings and shops will be reduced as much as possible. Power economies are being introduced in the shops but the construction of new cars will stop.

The company believes that the interests of the greatest number can be served better by effecting the power economies mentioned above, such as using "shuttle" cars at the ends of lines and reducing the stops than by a general reduction of the number of cars operated.

The power shortage is a condition of nature which affects all industries in Southern California and requires the willing co-operation of every industry and every individual until normal conditions are restored.

WALNUT MEN
ELECT CHIEFSPresent Officers Kept in for
Another YearReports Show Growers Were
Well RemuneratedCrop Nets \$9,000,000; Price
Stands Up Well

Disclosing the fact that it marketed nearly \$9,000,000 worth of walnuts last year at substantially 1923 prices, the California Walnut Growers' Association held its annual meeting yesterday and re-elected its old officers for another year.

The officers are C. C. Teague, president; Ralph McNease, vice-president; Carlyle Thorpe, general manager; W. T. Webber, secretary-treasurer; Claude B. Payne, assistant secretary, and George E. Farrand, general counsel.

Despite a general demoralization of markets in 1923, the California Walnut Growers' Association closed a successful season, while organizations handling similar California products experienced net losses in disposing of their crops, the annual report of General Manager Thorpe showed.

The organization packed and sold 28,753,865 pounds of unshelled walnuts against an output of 48,113,890 pounds in 1923, and the opening price value of that crop was \$1,911,294 against \$2,213,709 for the previous year.

The average gross price paid for last year's crop was 2.15 cents per pound, compared with 2.35 cents for 1923, which indicates a decline of only three-tenths of a cent during a period when other farm crops experienced price declines ranging between 15 and 50 per cent of the opening prices.

One of the things which strongly favored successful marketing, according to Sales Manager Webber, was the fact that the growers succeeded in getting 97.3 per cent of the entire crop into the first pool. This made it possible to distribute a heavy percentage of it early in the winter, when consumer demand was strong. Only twenty days were consumed between packing-house and consumer, the report shows.

It is asserted that the quality of the association's pack is being improved by better harvesting and packing methods, but that the greatest improvement is being brought about automatically by the growing of better size and finer quality.

MORE THAN
FIFTY YEARSVeteran Steward of Liner
Venezuela Has Traveled
3,000,000 Miles at Sea

Fifty-two years at sea, 343 trips across the Pacific, 3,000,000 miles aboard windjammer and steamer over most of the oceans of the earth—that is the record of the venerable E. L. (Dad) Hawyes, who came into port as chief steward and aboard the Pacific Mail liner Venezuela yesterday en route to New York.

He is one of the oldest active sea salts on the Pacific today, and his cognomen, "Dad," is applied by the younger generation of seafaring men with a genuine sense of affection. For "Dad" has taught literally hundreds of the youngsters the intricacies of the seafaring game. When the youngsters are "stumped" by a new problem it is to "Dad" Hawyes they turn, and it is said he is never without a ready solution.

"Dad" wears six silver stripes on his sleeves, indicating that he has been thirty-nine years in the service of the Pacific Mail. Born in London, he answered Neptune's call in a Scottish windjammer when he was barely 20. He's been sailing ever since. A year ago he was made assistant dock steward at San Francisco, but the call of the sea tugged him away again, and when Robert Humphries left the ship at San Francisco, "Dad" once more set out woeing his lifelong love.

The Venezuela sailed for Central America and New York at 6 o'clock last night with 116 passengers aboard her, sixty-five from Los Angeles. Among them, A. M. Shenk and W. J. Hartman of Imperial Valley, on their way to San Salvador to plant 25,000 acres to cotton, blazing the trail to a new industry there which will react on Los Angeles shipping. Aboard her also is J. W. Scheuch as new purser. The liner has a large cargo of canned goods for Havana, rope for South America, canned goods for South America, bananas for the Latin states and dry goods from Los Angeles for Central America.

William Shipley, 63 years of age, and his wife, Anna May Shipley, who were married after considerable litigation over property in the belief that they could thus settle their troubles, appeared before Judge Guerin of the Superior Court yesterday and both confessed that it is impossible to marry trouble away, but that it is fairly easy to contract additional grief in marriage.

Prior to their marriage, Mr. and Mrs. Shipley, both of whom own considerable property in the city, had appeared in court frequently to straighten out differences between them relating to their holdings. A courtship followed these court meetings. They remained married just two months and twenty-seven days when his wife kicked him out of bed at 4 a. m. one day, Shipley declared, and he left home.

Mrs. Shipley, however, set the duration of their marriage at one month and eleven days, at the end of which time, she said, her aged husband picked up and left.

Judge Guerin, after hearing the evidence, continued the case for one week.
